REPORT

OF THE
ST. JOHN'S FIRE RELIEF COMMITTEE, 1892.

RELIEF COMMITTEE OFFICE,
December, 1893.

MAY IT PLEASE YOUR EXCELLENCY:

It seems appropriate that any Report of the proceedings of the Fire Relief Committee should be preceded by a notice of the terrible fire with the results of which the Committee were called to deal. The newspapers of September of last year gave detailed accounts of this calamity, and a brief general *resume*, will, therefore, suffice for the present purpose.

FIRE OF FRIDAY, JULY 8th, 1892.

For some time before the memorable fatal Friday, the heat of the weather had reached an unwonted degree, and extensive forest fires had been burning in the immediate neighborhood of the town. The particular day was one of the warmest of the season, the thermometer indicating 85 degrees. About five o'clock in the afternoon the alarm of fire was given, when it appeared that the destructive element had broken out in a building at the junction of Freshwater and Pennywell roads, high above the town. As so commonly happens on such occasions, a very trivial accident was the cause. A match lighted for smoking and heedlessly thrown aside fell on some straw, and hence arose the conflagration which devastated two-thirds of the City of St. John's. A pail of water used at the moment would have been sufficient to extinguish it; but that critical moment was lost on which such dread consequences hung. And this first deplorable accident was at once powerfully helped by a concurrence of others fraught with evil. From the excessive heat of the atmosphere, rendered more intense by the Forest fires, and from a long continued drought, all wooden buildings were parched like tinder. Of water, normally in abundant supply, there was none to be had immediately on the high ground where the fire began, nor was it available there until too late to be of effective use. The pipes having needed repairs, the water had been drawn off that very

morning—hence the delay ; and lastly, a north-west wind blew to the height of a tempest. Thus, if the destruction could possibly have been premeditated, no apter preparatory conditions were conceivable than those which marked its inception. All the buildings near that in which the fire originated were very quickly ablaze, and from these the flames leaped and bounded with the velocity of the wind to others of a larger and better class. Then were attacked the Methodist College Hall and House, the Masonic Temple, the Presbyterian School, Colonial and Continental School, Gower Street Methodist Church and Parsonage, the Orange Hall, Saint Patrick's Hall, the Church of England Clergy House, and the residence of Bishop Jones ; and next the beautiful Cathedral of the Church of England. Until this time there lingered a faint hope that the water might have been got to work with some appreciable effect : but when the cry flew around that this hope was gone, and when the buildings last named were seen to be doomed, despair fell upon all hearts, and the wildest confusion and consternation were manifest in every direction. The Court House, the Athenaeum, in which was the Savings' Bank, St. Andrew's Church, the Commercial Rooms, the Commercial Bank and the Old Temperance Hall, next caught, one almost immediately after the other, the flames also reaching and consuming the buildings that stood at the westward in Duckworth street, including the Total Abstinence Hall, the Star of the Sea Hall, those at the north-east in Gower street and Queen's road, with the Congregational Church, and those at the southward and westward in Water street, at both sides of these streets. All the newspaper offices, in different localities, were destroyed. In Water street on its south side were the commercial premises, dwellings, stores, and shops, all of which, with the Mechanics' Hall, the Custom House, and the grocers and other shops on the north side extending east to Hoylestown, were consumed in three to four hours ; as were also the houses and shops lying west as far as O'Dwyer's Cove. All the buildings in Prescott street, the British Hall included, and nearly all those in Cochrane street, shared the same fate ; and when ten o'clock arrived all that had stood over the space above indicated was reduced to blackened and smouldering ruins. If anywhere, during those awful hours, occurred the thought of attempt to stay the spread of the destroyer, this was instantly paralyzed by the conviction possessing all minds that the utmost possible effort must prove fruitless, for the storm of flame may be said to have mocked all human power, as it swept onward and around with relentless fury till its work of destruction was complete.

Those who had to flee from houses and homes confined their exertions to the saving of household goods and such other movable property as they could carry or cart away to various distances, wherever there seemed promise or hope of safety; and again and again in many instances was this labor undergone, as the fire ranged on to so many places of supposed security. Thus the poor victims toiled and toiled on to exhaustion throughout that night, and daylight rose upon scenes of sorrow and desolation which may perhaps be pictured by the imagination, but of which it were vain to pretend to give adequate verbal description.

The number of private houses consumed was 1572, with 150 stores; and the number of families rendered homeless, 1900 comprising 11,000 persons.

There were only two cases of loss of life—those of a Mrs. Stephens, a nurse, and her niece. They were believed to have been burned to death in their house on Meeting-House Hill, as they were never afterwards seen.

The loss of property was approximately estimated at \$13,000,000, of which only \$4,480,000 was covered by insurance.

NEXT DAY—MEASURES OF RELIEF.

It was seen next morning that many sufferers were finding temporary quarters in the houses of their friends and neighbors, who gladly provided the best accommodation they could for those in need; while thousands of men, women and children were huddled together on Bannerman Park, Government House grounds, the Mall, Parade ground, and other open spaces, destitute of all, or nearly all, they had possessed, except the clothes they wore, and exposed to all the chances of the weather. Luckily for these poor creatures, the heat continued, and they were thus spared sufferings from cold which they would probably have been unable to endure.

All who had escaped the fire were early astir and actively working in aid of the distressed. The promptings of humanity and charity were as freely and fully as possible carried into effect in supplying food and other immediate requirements. There was urgent demand, too, for shelter for homeless crowds, and the Government lost not a moment in coming to their rescue, directing that sheds should be forthwith erected on Bannerman Park, the Parade grounds, the Railway Depot (kindly placed at their disposal by the Railway Company's manager, Mr. Noble), and other suitable places; and that provisions should be issued to those unable otherwise to procure food. The erection of sheds and the feeding of the hungry proceeded accordingly with all practicable speed.

REPORT OF ST. JOHN'S RELIEF COMMITTEE.

Nor were our citizens left during this trying time to their own efforts to cheer and console the afflicted. No sooner were the sad tidings of the calamity wasted by telegraph to the outside world than messages began to arrive from several cities of Canada, the United States, and Great Britain, expressive of deepest sympathy and promising immediate and bountiful assistance. It is worthy of special and grateful record that while yet the fire was raging on the night of the 8th a Relief Committee was formed by the citizens of Halifax, Nova Scotia, and liberal contributions were entered on a subscription list. Her Majesty's flag-ship *Blake*, Captain Hamilton, then at Halifax, started early next morning and arrived here on the evening of the 10th with supplies of provisions, clothing, tents, and other articles for the sufferers. Her men were at once placed at the disposal of the authorities and rendered most valuable service in various ways, their presence assuring order and giving a sense of security in the midst of that confusion ever attendant on such conflagrations. And after the *Blake* left the captains of the warships on the station,—the *Emerald*, *Pelican* and *Buzzard* on their visits here sent their men to give assistance which was highly appreciated.

APPOINTMENT OF RELIEF COMMITTEE.

His Excellency the Administrator of the Government, Sir Frederick Carter, appointed a Relief Committee composed of citizens representative of all classes, to take charge of and disburse all contributions and assume management of all relief works. The following were its members:

This Committee held their first meeting on the 12th July. Their immediate attention was directed to the necessity of a supply of provisions and clothing, and to forwarding and extending the work of shelter. To carry out with system these and other duties incident to the emergency, such as receiving and dispensing donations of goods, purchasing, corresponding, &c., &c., the Committee divided itself into sub-committees, each of which had charge of a special department, as follows:—

REPORT OF ST. JOHN'S RELIEF COMMITTEE.

All contributions of money were ordered to be deposited in the Union and Commercial Banks, to be drawn by cheques on the Treasurer on requisitions signed by the Chairman and Secretary.

Contributions of goods of every description, purchases, and all erections for shelter to be insured; these orders were carefully fulfilled.

EXPRESSIONS AND DEEDS OF SYMPATHY.

The proofs of practical sympathy from abroad were now pouring in upon us in overflowing measure. It seemed as if every city and town that knew the name of Newfoundland was moved to its depths of feeling in our behalf, and as if there was a rivalry of anxieties to speed us words of comfort with substantial succour. Never, probably, in the records of such misfortunes, were stricken thousands befriended with a generosity more heartwarm and profuse; more spontaneous it could not have been—it did not wait for us to seek it, it hastened to seek us, and flowed in as if some concerted movement impelled it, from near and from afar. From the Government and great cities of Canada, and from several of those of lesser note, we received from day to day and week to week advices of donations of money, and authority to draw for amounts subscribed; while intelligence of like import came from cities of the United States. In many of these cases we also learned of shipments of goods suitable for relief purposes, which soon after came into our hands.

We were very soon informed of a meeting of the Mansion House Committee of London, called by the Lord Mayor, to organise a Relief fund. Your Excellency was in London at the time, and, as the Committee gratefully record, started this movement and aided it with all your influence and energy. It accomplished splendid results—the money contributions received from the Mansion House Committee having amounted to \$118,705.02. They forwarded besides on several occasions large shipments of clothing.

The committee desire also to acknowledge a deep obligation to Lady O'Brien for her strenuous exertions, while in England, on behalf of our sufferers. To her personal appeals amongst her friends there we owe the bountiful supplies of clothing which arrived to her from time to time through the year, and which she dispensed with untiring hand at Government House to the crowds of needy ones who sought her kindly aid.

Her Majesty's Government presented the munificent gift of \$72,000; and the War Office sent numbers of packages of clothing and other very acceptable articles,

REPORT OF ST. JOHN'S RELIEF COMMITTEE.

9

As intelligence of the disaster spread, came messages and letters from English and Scotch cities, from the West Indies and Bermuda, and from friends residing in Britain, Canada, United States, and far off Australia, assuring assistance. Even from the Island of Mauritius, whose people had not half recovered from the effects of a recent most destructive hurricane, was borne the voice of sympathy accompanied with the handsome donation of \$480. Some of the insurance companies who had sustained heavy losses by the Fire, notably the *Commercial Union, Liverpool, London & Globe*, and *The North British & Mercantile*, cabled munificent subscriptions. The Allan Steam Company, in addition to a liberal money contribution, dispatched their steamer *Newfoundland* here from Canada with relief goods freight free, and extended this exemption to all such goods shipped by their steamers from East and West for several months. We experienced similar liberality from the Liverpool, Newfoundland & Halifax Company in regard to shipments by their steamers to this port. Our acknowledgements are also due to the Anglo-American Telegraph Company for their kindness in giving the Committee the gratuitous use of their wires for transmission of messages to and from Newfoundland throughout the season.

WORK OF THE COMMITTEE.

The first endeavors of the Committee were directed to the further supply of provisions, clothing, &c., to those who were destitute and unable to labor, and to the increase of the means of shelter.

For about a fortnight relief in provisions, clothing, bedding, &c., was dispensed more freely perhaps or with less discrimination than could have been desired; but the stress and pressure of those days rendered this wholly unavoidable. Some applicants may possibly have received more assistance than was absolutely needed; but the Committee felt that the risk of such an error was trivial as compared with that of allowing any of the sufferers to want the necessities of life.

Fortunately, at this juncture, the Committee were enabled to avail themselves of friendly and experienced advice. We were favored with a visit from Mr. James Reynolds and Mr. Burke of New Brunswick, who had been President and Secretary of the Relief Committee of St. John, N. B., on the occasion of the last great Fire in that city, and who generously volunteered to come here and assist us with their counsel. These gentlemen attended the meetings of the Committee during their stay and inquired minutely into our *modus operandi*, offering such suggestions

as might serve for our guidance. The Committee had the satisfaction of hearing from them their approval of the course that had thus far been pursued, and of the rules or lines on which it was proposed to proceed in the future conduct of our relief business. They further expressed the opinion that the general arrangements of the Committee were an improvement on those adopted by their Committee after the fire in St. John, N.B.

MEETINGS OF THE COMMITTEE AND FURTHER ISSUES.

The General Committee now held meetings every afternoon, the Sub-Committees meeting in the earlier hours and reporting to the General Body. Relief in money was issued by orders on the Treasurer, great care having been taken to ascertain as far as possible the wants of the recipients by regard to their former as well as to their actual circumstances. This was a work of no small difficulty. Many were the cases of persons who, before the fire, were in positions of ease and comfort,—single ladies and others who from weak health and other causes were unable to support themselves by manual labor and who now were reduced to complete dependence. These generally were not importunate in their appeals—indeed it often happened that the Committee on information of their distress had to seek them out and administer to their necessities. To discriminate at all fairly between this numerous class, and others who eagerly urged their demands, required constant inquiry and vigilance on the part of the Committee and their employees.

Elsewhere will be seen the form of printed cards that were given to applicants for food, clothing, bedding, furniture, &c. These cards were filled up by the Sub-Committee in charge of this department, on being satisfied, either from personal knowledge or from the recommendations of clergymen and other reliable persons, as to the needs of each case. The cards were taken to depots where the articles required had been stored and where they were then issued.

A large number of tradesmen, seamstresses, &c., were thrown out of employment by the loss of their tools and sewing-machines, and applications pressed in on their behalf. The Committee recognized the importance of providing assistance for these classes that they might be speedily enabled to resume their occupations, and the necessary funds were supplied in all cases duly certified.

The Committee were applied to in many instances for the passages of sufferers, chiefly women and girls, from here to the United States

and Canada. Messages and letters came from their friends in these places, encouraging them to proceed and showing that employment awaited them. It was sometimes also shown that their remaining here would but impose additional burthens upon their families and on the Relief funds ; and for these reasons their passages were paid by the Committee.

BUILDING OF SHELTERS.

Meanwhile the Building Committee were engaged in extending the erection of shelters on the several open spaces before mentioned. This work progressed rapidly, and in a very short time nearly all who wanted housing were seen to have secured temporary accommodation in sheds and tents. Their sanitary requirements were provided for, too, as well and carefully as circumstances permitted ; and they had the regular supervision and attendance of medical men. The season was a healthy one ; and amongst the large number of people in care of the the committee there were but a few cases of serious sickness and very few deaths—all these having been such as would presumably have occurred under any ordinary circumstances.

About this stage of proceedings employment was offered for all tradesmen and laborers who could avail of it in the rebuilding of the burnt areas of the town. Many belonging to these classes had been hitherto more or less dependent on the Committee for support, as their occupations were for a time suspended ; and now that they were resumed, the pressure on the resources of the Committee was proportionately diminished.

On the 6th August, Judge Little, Chairman of the Committee, was obliged to resign his post, having had to attend Circuit duty, and the Hon. E. D. Shea was chosen Chairman.

PROPOSALS FOR ERECTION OF PERMANENT HOUSES.

The time had now arrived for considering the question of erecting permanent houses for all helpless and homeless sufferers, and various proposals engaged the attention of the Committee. The suggestion of building a number of houses, to be let at small rents, somewhat on the principle of the Peabody model-houses in England, seemed to find favor with some members of the Committee. The system had worked well in the Old Country, and it was held inferentially that this should induce us to try it here. It was, however, contended that there appeared to be so little analogy between the circumstances in these cases that the reasoning in

application to us was misleading ; and this project, after much consideration, was ultimately relinquished as unsuited to local conditions.

Tenders were then obtained for such other Building proposals as were deemed the more eligible ; but difficulties arose on points of detail, which induced the Committee to hesitate about accepting any of the offers, and decision was deferred in order to ascertain if more mature enquiry might unfold some generally acceptable scheme.

ANOTHER CLASS OF BUILDINGS.

The Building Committee were at the same time busily occupied with another class of sufferers—those who, while having lost heavily, yet possessed some means, either former savings, or amounts of insurance just received. These were persons in various lines of business; who were anxious to rebuild and pursue their industries, but were unable to do so without a helping hand. It was obviously important to extend to them the necessary aid ; and their cases having been duly inquired into by the Building Committee, they were supplied with lumber and other requisite materials in such quantities as appeared to be sufficient for their assistance. The aggregate of aid thus rendered throughout 1892 and '93 was very considerable, as will be seen from the statements of figures which appear in other parts of this Report.

SPECIAL CLAIMS.

It now appeared to the Committee to be necessary to deal in a definite and systematic manner with the large number of sufferers of the upper and middle classes who stood in need of pecuniary aid ; and a Sub-Committee, composed of the following members, was appointed to this duty :

HON. E. P. MORRIS, J. R. McCOWAN AND H. C. BURCHELL.

A sum of \$50,000.00 was placed at their disposal, and they were directed to give public notice that they would sit for certain hours each day to receive statements of losses, which should be verified by statutory declarations. They proceeded at once to work, and spent several weeks in a minute and laborious scrutiny of these claims. They were classified and numbered 1, 2, 3, 4, 5, 6 and 7, according to the difference of their losses and of their present degrees of need, the parties appearing before the Special Committee and answering the necessary questions, each separately

examined. Such amounts were then awarded as seemed to be equitable in view of the varying exigencies, relatively with the funds appropriated to this object.

REVISION OF CLAIMS.

It was afterwards represented to the General Committee that from misinformation and other causes many of these awards appeared to be below the merits of the claims, and that a readjustment was highly necessary. It was also brought to the knowledge of the Committee that a still larger number of apparently legitimate claims had, for several reasons, not been presented at all for examination. In some cases persons had been rendered unable from illness to put them forward. In others they had been absent from town or from the Island when the inquiry was proceeding and were unaware of it until their return. The nature of those occupations of our industrial classes which so often and for long periods call them from home rendered this obviously intelligible. It was, therefore, ordered that there should be a revision of the awards; and that outstanding claims should also be heard and disposed of as they came in. Additional sums were voted from time to time for these purposes, and the following members were appointed a Sub-Committee to carry them into effect:

HON. E. D. SHEA, HON. E. P. MORRIS AND MR. JAMES HOWE.

The labors of this body extended at intervals over the year. The applicants appeared at no stated times, but as chance or opportunity brought them; and such awards were made as the facts on full enquiry seemed to warrant, by regard not so much to the losses, as to the actual necessities of the sufferers.

HOUSING OF THE POOR.

The subject of housing the poor who were quartered in sheds and tents on Bannerman Park, the Parade, Quidi Vidi, Railway Ground, and elsewhere, which, as already shown, had been deferred, was now resumed. After lengthened consideration it was decided that as many persons in town, some of them fire-sufferers, were erecting or about to erect permanent dwellings of the smaller class, the Committee should offer to assist them by contributions of lumber, with certain sums of money according to circumstances, on agreements made with them to house the occupants of the sheds and tents for a year free of rent. Tenders were advertised for on

this basis and soon after received. The Committee were accordingly enabled to provide suitable accommodation for all those on the Railway and Qnidi Vidi Grounds; most of those on Bannerman Park, and some from the Parade Ground; and thus, with the exception of the number still occupying the last named locality and a comparative few on Bannerman Park, the majority of those sufferers whose cases occasioned principal anxiety to the Committee, have been tolerably well housed. By the end of the next two or three months it is pretty certain that the Park will be almost cleared of occupants, as they are now moving off from day to day. Those on the Parade are also thinning in number and finding other quarters, and though slowly, yet as fast as the contractors can build for them; but it is probable that most of them will have to remain where they are till next spring or summer, when, if necessary, they may be disposed of as their fellow sufferers have been, and probably on like terms. This arrangement commends itself to the Committee, from experience of its results to the present time, as the most generally advantageous solution of a very perplexing question. The people concerned are as well housed as they were before the fire—some are better off in this respect. They are rent free for a year; and after that time, having regard to present prospects, new houses will be available within their own means.

Although the Committee feel that they are now nearing the termination of their duties, it may still be considered certain that necessities will in a short time arise which do not yet assume definite form, but for which provision will be indispensable. There yet remain some six hundred persons on Parade Ground and on the Park, and by far the greater number of the former, as already stated, will be quite unable to leave their sheds before the middle of next year. There are many others, living in various localities about the town, whom the Committee have helped to build, but who, in all probability, will want further aid to put their dwellings in good condition, the supplies issued to them by the Committee having been regulated to a reasonable extent by views of economy. The winter already arrived must increasingly strain the scant resources of all these classes; and we have, therefore, to anticipate applications which humanity as well as the generosity of the contributors of our funds would forbid us to disregard. Fortunately, there is still in the

hands of the Treasurer a balance of about \$28,000, which the Committee are of opinion should be reserved to meet such requirements as those to which we have just referred.

Elsewhere in our Report appears the telegraphic and letter correspondence received from the contributors, all of which was thankfully acknowledged as it arrived. But upon reviewing all that was done by those true friends to lift our sufferers from the depths of dire want and anguish and to cheer and sustain their efforts to retrieve their losses, we cannot but own the comparative poverty of even our most grateful words. The extent of our indebtedness indeed is not for words to interpret or define. But though it remains unspoken, the profound sense of our obligation will nevertheless live on through the coming years, a vivid, cherished, and undying memory in the hearts of the whole people of Newfoundland.

My Dear Mr. McNeil,—Mrs. Houston and I have been distressed by the accounts coming in from day to day of the disaster that has over-

taken your town. We find by the latest intelligence that your own place has been destroyed.

We earnestly hope that none of yourselves have been injured by exposure or otherwise and that your losses will not be very heavy, though the interruption to business must be serious.

We understand that a great many families have been rendered destitute by this terrible calamity and that a fund has been opened for their relief. I should like to contribute my mite to this fund, but I do not know to whom I should send it. Will you please have my name put down for a subscription of £10, which would be a great deal larger if my means allowed; and let me know as soon as possible to whom I should remit the amount.

A MUSEUM GIVER TO THE ST. JOHN'S FUND.

An elderly lady, kindly in feature, small and spare in stature and plainly dressed in black, approached the counter of the *Sun* yesterday and handed a package to the cashier. "Here are \$100," she said. "which I would like you to have transmitted to St. John's, Newfoundland, for the fire sufferers." She was asked to give her name so that acknowledgment could be made, but she refused, saying she did not desire to have her name made public in connection with the gift, but that the money might be cre-

dited to "sympathy." The little lady then left the office with a happy look upon her countenance and boarded a Madison Avenue car going west. The money was promptly sent to Mayor Latrobe, who forwarded it to its destination at once.—[*Baltimore Sun*.

HON. J. S. PITTS, ST. JOHN'S., N. F.:

My Dear Sir,—Yesterday I deposited, at the Bank of Yarmouth, fifty-six dollars to your order (of which the Bank will acquaint you), for the relief of the sufferers in the late terrible fire in your city.

This sum was collected by me in our small village of only 200 inhabitants, which, I think, is very creditable, especially as we have no wealthy people in our village. Each sum was given freely, recognizing as they do the great amount of suffering attending such a fire.

Many of the towns throughout the province, I notice, are sending their contributions through the Relief Committee of Halifax. Our friends thought it best to remit to you direct, believing it will be judiciously expended.

Hoping the relief going forward from all parts of our Dominion and elsewhere will, in a large measure, relieve the many deserving poor,

I remain, yours very truly,

TORONTO, ONT., July 18, 1892.

J. J. LITTLE, Esq., PRESIDENT RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir,—It gives me great pleasure to say that I have to-day sent forward to the Relief Committee of your city two shipments of flour, part *via* G. T. R. and C. P. R. respectively, the contributions of the millers of this province. I will be able, from advices in my hands, to forward in a few days further shipments of a like kind. The quantity advised up to date is as follows:—Flour, 250 bbls. and 88 sacks; oatmeal, 5 bbls.; one box of clothing. I am also in receipt of a letter from the Todd-Milley Co., of Galt, in these words: “Your circular of the 11th received. We have to-day sent direct to St. John's, N. F., 50 bbls. of flour, donated by the town of Galt, and are including in this lot our own contribution. Wish you every success in your laudable enterprise.”

I need hardly say to you how deeply the people of this city and country sympathize with their sister colonists in their terrible distress. Anything further in our power will be cheerfully done.

Sincerely yours,

A. G. MORTIMER.

WALMER BUILDINGS, 6 WATER STREET, }
Liverpool, July 19, 1892. }

SIR WILLIAM WHITeway, K. C. M. G., ST. JOHN'S, N. F.:

My Dear Whiteway,—You can imagine how terribly shocked we all were to hear of the crushing disaster that seems to have overwhelmed the city of St. John's. The moment I heard it, I called, with Job, on the Mayor of Liverpool, and induced him to call a town's meeting, and beg the citizens of Liverpool to contribute towards mitigating the misfortunes of the poor people of St. John's.

We cabled you to have an authoritative report, and we were obliged for your cable, of which I have made full use.

I to-day, at the request of the Mayor of Manchester, went to Manchester and pleaded the cause of the distressed poor in St. John's and with a very generous response, and you will, no doubt, receive from Manchester a considerable sum towards the Relief fund, which will be at the disposal of any Committee which may be appointed to distribute it in St. John's.

The Mayor of Liverpool to-day at my request cabled to you saying that he proposed forwarding £1,000 towards the Relief fund and asking how, or in what way, it should be remitted. We shall, no doubt, get your reply in due course. I have assured all the liberal subscribers to this fund, that a reliable and responsible committee will be formed in St. John's to administer their generosity, and I hope that you will see that such a committee is formed and that the Relief fund be administered according to the wishes of the donors. It was expressly said at the Liverpool meeting that all donations were given for the relief of the poor indiscriminately, and it was expressly understood that none of the funds so subscribed should be given towards the erection or the support of any religious denomination whatever, as it was thought the rebuilding of places of worship (which should have been insured) did not fall within the scope of such donations.

You, no doubt, will quite agree with this restriction; but outside of

that the funds are given at the free disposal of a committee to be formed in St. John's for its distribution.

Assuring you of my deep sympathy with the citizens of St. John's, and always at your service

I am, yours sincerely,

W. B. BOWRING.

To HON. JUDGE LITTLE, ST. JOHN'S :

Dear Judge,—Since the fire I have been telegraphing almost daily to London (Reuter), to New York and Montreal, I have aimed at awakening sympathy, and urged that all possible help should be sent. On one point I find almost a total want of information—the amount subscribed by different cities and individuals. If I were able to telegraph some of these it would be a stimulus to others to contribute; as it would show the magnitude of our misfortune, and the light in which it is regarded by those best acquainted with it. The noble example of liberality when made known would enlist numerous imitations; and besides would kindle due feelings of gratitude among our own people. If I had any information on this point I think I could turn it to profitable account.

Sincerely yours,

M. HARVEY.

I was informed by the Treasurer that he had sent you \$4,000 by telegraph; we hope to send you as much more and know it will be telegraphed before this letter reaches you. Will you please have your Secretary write me a letter giving me all the description of the fire possible, number homeless, money loss, etc., so I will get same into the papers here

and stimulate more excitement for the press. In that way we will keep the attention of the public and will get more out of them. On next week we will open a Depot to receive clothing, provisions, &c., and as soon as possible will forward them to New York, care of Bowring & Archibald, who will send them on to St. John's. I trust your call for aid has not been unheeded, and that the other cities of the United States and Great Britain are coming to your aid. We will raise all we can here for you. Chicago is called on so much to aid distress, it is an appeal of some kind all the time.

in relieving sufferers by the great fire in your city, and in token of our sympathy.

Also you are authorized to draw on me at sight through the agency of the Halifax Banking Co., Barrington, N. S., for one hundred dollars, contributed in Barrington Passage, also for the Relief fund. These trifling collections have been taken from a cheerful-giving, hard-working people who desire to lessen the burdens of worthy sufferers.

On any intimation from you that articles of clothing and bedding would still be acceptable further collections might be made. Wishing you to forward the distribution of goods and funds and to acknowledge the receipt of the same.

I am, yours respectfully,

EDWIN CROWELL.

JAMES B. SCLATER, ESQ., SECRETARY RELIEF COMMITTEE :

Dear Sir,—I have your note of yesterday *in re* a parcel of goods ex. S. S. Pomeranian, said parcel was sent to me by friends in Scotland and contains wearing apparel, which they ask me to give or cause to be

given to the sufferers by the recent fire. The Customs' Authorities asked me about it, and I told them to hand it to you, so if you can and care to take charge of it I will be glad, and am,

Yours truly,

MICHAEL THORBURN.

NORTH SYDNEY, C. B., July 26, 1892.

J. B. SCLATER, Esq., SECRETARY RELIEF COMMITTEE:

Dear Sir,—I have paid to-day your draft for \$510, amount subscribed by the town of North Sydney for the relief of the sufferers in St. John's. You do not appear to have got hold of the right name, but the draft came to the right quarter.

We hope your destitute and homeless have met with a sufficient response under the terrible desolation that befell them, as we see it has been most generous in every direction.

Sincerely yours,

Wm. PURVES, *Mayor of North Sydney.*

NEW YORK, July 28, 1892.

MR. T. N. MOLLOY, AMERICAN CONSUL, ST. JOHN'S:

Dear Sir,—We are to-day shipping to the Relief Committee of your city eight cases of ladies straw hats which we beg to offer as our share of assistance towards those rendered needy by the late fire.

Trusting they may be of some service, and that you are recovering from the recent calamity

We remain, yours very truly,

T. W. HYNES & CO.

P. S.—These goods are sent per steamer *Miranda*, in care of Bowring & Archibald, Broadway, of this city.

Statement of Messrs. Reynolds & Burke in re the Management of the Relief Fund in St. John, N. B., at a Meeting of Relief Committee, July 21st, 1892.

Having visited your several grounds and store houses, and having had explained to us your methods of present distribution, and what you purpose doing in anticipation of the coming winter, with the aid of your Labor Bureau, we hesitate proffering advice, but will make some suggestions. We are of opinion that a method of inquiry by visitors would prevent any or much attempt at imposition, and to an extent aid the inquiry which your Government purpose to make by commission, and for the reason that some time must elapse before that commission can report, we think the system will prevent imposition by members of the same family and others.

We have found by experience that this is the best method of keeping an account of the goods issued as all grants are endorsed on the papers: If an index of the name and number of the applications be made, immediate reference can be had in the case of a renewal of the first applications; ultimately, a calculation may be made of the amount or value of the issue made. On a second or later application inquiry can be made of the changed condition of a family; there is more or less waste in giving out supplies.

CONTRACTS.—The adoption of a system of contracts for goods of all kinds was found to be a great saving. A large staff of buyers, storekeepers and clerks can be dispensed with, enabling us to learn from day to day how much was given and expended. It was found to be more pleasant to the people.

In our report are scales of rations issued on page 115—which without an exception was proven to be an ample and sufficient supply—those were issued in cases where needed during our first and second winter. You will find that a strict observance of the rules you make for the guidance of your Labor Bureau, will be of immense benefit to you in relieving you of many unworthy applicants and tend to make your people more self reliant.

In all cases in which, from visitors, reports, or otherwise, we learned the family was prudent, we found it wiser to pay wages in cash, as tending to strengthen a man's self-respect, and for another reason—that very many are inclined to belittle the value of goods issued, as well as that a thousand and one little things are needed in every household, that cannot be obtained without money. Foreign labor not coming in, you are better able to control

than where the city (as in the case of St. John, N. B.), was in easy communication with other places.

In St. John we erected shanties 16 feet square, interlined, and filled the spaces with saw-dust or tan. These, with double doors, were found comfortable during the winter.

The regulations, sanitary and others, were strictly carried out, necessitated by the crowding together of so many.

We have listened to your discussions, among others the question of stoves and their cost. As soon as you possibly can you will see the necessity of doing away with your buildings, as with all your care there will be much that will be unpleasant and demoralizing; therefore, looking to the issue of stoves they will have to be supplied too.

MONTRÉAL, July 30, 1892.

HON. J. J. LITTLE, PRESIDENT RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir,—On behalf of the Montreal Citizens' Relief Committee, I beg to hand you herewith bills of lading and shipping documents for provisions, clothing &c., shipped per bearer to your consignment for distribution by your Relief Committee to the sufferers by the recent fire. This community sympathises deeply with you in the great calamity, and all classes here cheerfully assisted in the good work of relieving your distressed people. The city of Montreal donated \$10,000. Railway companies transported goods free and the Messrs. Allan carry the whole from Montreal to St. John's free of charges. Our Committee hope at an early date to send you another cash contribution. There are some goods on board of this steamer, donated to you from western cities; same are specified on manifest so that credit be given where it is due. Again assuring you of Montreal's sympathy and deep interest in the welfare of your community

I am, dear sir, yours very truly,

ROBERT PATIN MCLEA, Member of *Relief Committee*.

P. S.—The S. S. *Newfoundland* cannot take all that we have for you, so what is left over will be forwarded by an early steamer.

MONTRÉAL, July 30, 1892.

THE SECRETARY OF THE RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir,—The S. S. Newfoundland sails hence this afternoon and a full cargo of provisions, clothing and sundries for the relief of the sufferers by the recent fire. Everything that has been purchased has been carefully selected and will be found of use. Donations of clothing, rubber boots and many things in packages contents of which have not been unnumerated will also, we trust be found useful. The Committee accepted anything that was sent. For your guidance in distribution of flour the brands noted at foot are of rather better quality than the others.

Everything on board of *S. S. Newfoundland*, is for your Relief Committee, with exception of 2 cases dry goods consigned to you. These we allowed to go on board as we understand they are purchased for your Committee.

I am, dear sir, yours very truly,

ROBERT PATIN MCLEA.

MONTRAL, July 30, 1892.

TO PRESIDENT AND MEMBERS OF THE RELIEF COMMITTEE, ST. JOHN'S, N. F:

Gentlemen,—On behalf of the citizens of Montreal, we have pleasure in asking your kind offices in the distribution among the sufferers by the late fire in your city of the provisions, clothing and bedding, &c., which will be landed with this from the Allan steamer *Newfoundland*.

The Relief Committee here has been guided in the selection of its contributions by the cablegrams received from Sir Robert Thorburn and other gentlemen, indicating that foodstuffs and clothing, &c., were much wanted. The liberality of the Grand Trunk and Canadian Pacific Railways, the Dominion and the Canadian Express Companies, and the Messrs. H. & A. Allan, in affording the Committee free transport for the supplies, has, in the opinion of the Committee, been the means of swelling very considerably the quantity of supplies that it has been able to forward.

We have already been notified of the receipt by your Committee of the sum of one thousand pounds sterling in cash sent from this Committee, and we have no doubt but that we shall, so soon as the accounts, &c., in connection with the present shipment are closed, be enabled to contribute a further sum in cash, of which you will have due advice.

The collection and warehousing of the contributions have been undertaken by Messrs. Jas. A. Cantlie & Co. and Mr. James Williamson, while the shipping of the relief cargo on board the S. S. *Newfoundland* has been attended to by Messrs. J. & R. McLea, who will advise you more particularly as to details thereof.

Assuring you of the kindest sympathy of the people of Montreal

with their fellow-colonists in Newfoundland, and wishing you a speedy delivery from the great trials you are now experiencing,

We are, gentlemen, yours faithfully,

A. MARSHALL Esq.:

Dear Sir,—As a member of the Receiving Committee for relief, I beg to advise you that by last mail from England I have a letter from Messrs. T. B. Elley & Co, in which they say.

"By this steamer we have sent through Messrs. Allan Brothers & Co, 2 cases containing 185 pairs boots, shoes and slippers marked [J. E. P. P.] half which we have desired them to hand to you, please place them at the disposal of distribution committee as our gift. We have delivered them free to Allaus, and they will take them free to St. John's, so that you will have nothing to pay as the Government will not charge duty under the circumstances."

These cases are on no manifest that I have seen and I expected they had been left behind, but this morning I saw one of them in the south side store of (M. Morey's) and no doubt both are there.

Please get them away and acknowledge receipt to me, that I may send it to Messrs. Elley.

Dear Sir,—Enclosed find draft on Halifax, N. S., for (\$237) two hundred and thirty-seven dollars, the same being amount of cash sub-

scription paid in to date, for which please acknowledge receipt by the return mail.

We have uncollected cash subscriptions for \$60 and one collector to hear from, which probably will bring the whole up to \$100 in cash yet to be sent. Will forward same soon as collected.

Yesterday the Enterprise Foundry Co. here shipped you stoves and fittings to the value of \$52, and Charles Fawcett, Esq., ditto, to the value of \$50. To-day boots and shoes from J. R. Ayre and Abner Smith, Esq., and clothing from J. L. Black, Esq., to the value of about \$65, are being forwarded. These goods are all being sent to your address, care S. Cunard & Co., Halifax, who, we naturally expect, will forward them to you by first steamer having available space. Please acknowledge receipt of those goods when they arrive. We are also taking steps toward making collections of partly worn clothing of all kinds, blankets, &c., as we assume such things will be useful to many of the sufferers. These goods will also be forwarded as soon as the collection is completed. And last, and perhaps least, we send you our sympathy as *men* and *brothers* in your misfortune.

WOODSTOCK, N. B., August 1, 1892.

TO THE CHAIRMAN ST. JOHN'S RELIEF FUND COMMITTEE:

Dear Sir,—I forward to you through the Merchants' Bank of Halifax one hundred and fifty-six dollars (\$156), being the proceeds of a benefit concert given here on the 28th ult. under the auspices of Ivanhoe Lodge, No. 7 K. of P. and the Woodstock Debating Society, to be applied for the relief of those who suffered by the late disastrous fire in your city.

Yours faithfully,

W. B. NICHOLSON.

MR. JUSTICE LITTLE, CHAIRMAN RELIEF COMMITTEE, ST. JOHN'S:

Dear Sir,—We shall forward on the vessel leaving here this week the following goods, which we have purchased with our contribution of \$500.

Two hundred and fifty blankets, costing \$1.25 each, and ninety-seven blankets, costing \$2.25 each, less a discount of five per cent. for cash, making in all seven cases.

We shall also forward with this lot of blankets, several lots of clothing, &c., collected by the writer's wife.

REPORT OF ST. JOHN'S RELIEF COMMITTEE.

81

We are very happy to make this contribution and regret exceedingly that it is not larger.

If we can serve you in any way, if more of these blankets should be wanted, our facilities for purchasing of the manufacturers are very favorable. We should be pleased to assist you as far as we may be able.

In the meantime, we are, as ever,

Your friends and obedient servants,

W. BAINE GRIEVE, Esq., ST. JOHN'S, N. F.:

Dear Sir,—I dare say you will recollect that the whole of those present in the Provost's room to consider what was to be done for the

sufferers by the fire were constituted a committee. I have pleasure in letting you know as a member of that committee, that along with the sums already intimated, like our own by wire, or like those of some others by letter to St. John's, the fund now amounts to nearly £2,600 stg. We are in a position to send you £1,500 of that at once on receipt of a wire or a letter. Will you kindly intimate this to Relief Committee and taking their instructions with regard to remitting let me know their wishes. I hope you found things not quite so bad as you anticipated, though I fear this is hardly likely to be the case. With kind regards.

Yours very truly,

W. A. CAMPBELL.

I enclose copy of circular; it may be of interest.

GREENOCK, August 2, 1892,

JAMES GOLDIE, Esq., MANAGER UNION BANK ST. JOHN'S, N. F.:

Dear Sir--I beg to inform you that a meeting of the inhabitants of Greenock, convened by the Provost and Magistrates, was held in the Council Hall here on Friday, July 22, last, at which the following resolution was, on the motion of Mr. Robert Grieve, (of Baine & Johnston), seconded by Ex. Bailie Shankland (of R. Shankland & Co.), unanimously adopted, viz.: "That this meeting resolves to express its deepest sympathy with the city of St. John's, Newfoundland, in the lamentable and disastrous fire which recently occurred there, rendering thousands of persons homeless and destitute; and further, that subscriptions be opened in the town and neighborhood, and that Mr. William Smith, Town Chamberlain, be appointed Treasurer of the fund."

I am glad to be able to state that in response to the above resolution a considerable amount of money was subscribed at the meeting and subsequently augmented to a total till this date of £706 11s. to account of which I have now the pleasure to enclose you a bank draft in your favor for £700, receipt of which kindly acknowledge to me.

In addition to above, Rev. John Trew, B. A., collected in cash and food to the extent of £450, the goods being forwarded freight free by Messrs. J. & A. Allan's S. S. *Pomeranian* which, I observe, duly arrived at your port. A sum of £25 was cabled, by Mr D. D. Adamson, payable in St. John's direct, through Messrs. J. & W. Stewart.

The Treasurer is still receiving further subscriptions, and the exact

balance will be remitted to you when the account is closed. I send you a copy of the Greenock *Telegraph* newspaper of July 25, last, which gives full report of our meeting.

A desire was expressed that the fund collected here be applied only to relief cases of individual distress, and not to the re-erection of churches and other buildings destroyed by the fire which would probably be covered by insurance.

In the event of you not being the local Treasurer of Relief fund be so good as to hand this communication and proceeds of bank draft to the Committee in charge of the distribution of the fund.

I am, dear sir, yours truly,
COLIN MACCULLOCH, *Town Clerk, Secretary.*

SUMMERSIDE, P. E. I., August 2, 1892.

HON. JUDGE LITTLE, CHAIRMAN RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir,—I forward you herewith two bills of lading of provisions and clothing shipped *via* Halifax care of the Halifax Relief Committee who kindly undertook to forward for us from there, free of freight. This is the second shipment I have made from Summerside. We have not been advised of receipt of the last lot which went to Halifax and was forwarded from there by the *Newfield* on the 22nd ult. There has been no expense of any kind attending the collection or forwarding of these contributions. There may be a small charge for insurance, but of that I am not just now certain. We have about \$200 in cash which we will deposit to your credit here and advise you later.

Yours very truly,
RICHARD HUNT, *Chairman of Summerside R. C.*

Our contributions in cash and kind will amount to over \$2,000, I will forward detailed list of contributors' names and amount.

HON. J. J. LITTLE, PRESIDENT RELIEF COMMITTEE, ST. JOHN's, N. F. :

Dear Sir,—You will please receive draft No. 1299, Bank of New Brunswick of \$3737.47. List of contributions and statement of account, also clippings from St. John *Daily Sun*, showing the closing transactions of our relief Committee for Newfoundland sufferers. It gives me pleasure that our citizens' contributions shew such a satisfactory result, and I trust that with aid extended from all parts of the Dominion, the distress of your citizens will be considerably ameliorated. I am glad that my action as Mayor in having Messrs. Reynolds and Burke sent by the corporation to assist your people in organizing relief measures had a satisfactory result, and that their recommendations and suggestions were of service in perfecting your organizations as appears by the resolutions so kindly adopted by your Committee.

I am, yours sincerely,

THOMAS W. PETERS, *Mayor.*

Please acknowledge receipt of draft also of corporation draft sent 15th ultimo.

HON. JUDGE LITTLE, PRESIDENT RELIEF COMMITTEE:

Dear Sir,——Since writing you on the 2nd inst., I have received from Major Wright, Centerville, P. E. I., \$10.25 in cash, collected by him, which I have deposited to your credit with the amount already reported at the Summerside Agency of the Bank of Nova Scotia, making the deposit up to \$224.46.

I also enclose a memorandum of contributions received since we made the last shipment on the 22nd July. This lot was shipped as per bill of lading on the 30th ult. There are a few lots not acknowledged in this cutting which I have taken from a local paper, the principal one being from O'Leary.

We converted some potatoes and oats into cash, as the memorandum shows. There are several bags of wheat in the lot that went forward. They will come in all right for horse feed if you have no mills.

Yours truly,

RICHARD HUNT.

TO THE HON. MR. JUSTICE LITTLE, CHAIRMAN, AND GENTLEMEN OF THE
RELIEF COMMITTEE:

*Gentlemen,—*We rejoice to announce that the schr. *Carita*, laden with Boston's contributions to the sufferers of your city, will have cleared for St. John's before this letter reaches you. When the news of the fire

reached here we waited anxiously for your appeal for aid. As no appeal came, the Newfoundlanders here took upon themselves the responsibility of asking aid, as much for the memory of their childhood home as in the sacred name of a common humanity. A relief committee was appointed and the work of collection began. Small as their numbers were (and many of them were working people, too) it cannot be said but every son of Newfoundland did his whole duty.

It seemed best to send merchandize instead of money, because purchases could be made here to much better advantage than in St. John's. Generous merchants of this city, independently of our organization, have collected about \$3,200, which they propose to send in money. The Relief Committee has collected about \$7,000, and what sum is left after loading the schooner *Carita* here will be sent in the next vessel sailing for St. John's.

MR. JUSTICE LITTLE, CHAIRMAN RELIEF COMMITTEE, ST. JOHN'S N. F.:

*Dear Sir,—I am giving this letter to the Captain of the schooner *Carita* to be handed to you. On board the schooner are several pack-*

ages, bundles and bales of goods contributed by private individuals for friends and relations in St. John's, which we desire to have delivered to such parties as are named on said goods. When we opened headquarters we made the announcement that we would take care of special contributions made by friends here in Boston to friends in St. John's. Consequently we are most anxious that they go into the hands of those they are intended for.

The schooner sails to-day and I think our finances will warrant us proceeding with the loading of another vessel immediately.

As we told you in letter posted yesterday the Newfoundlanders responded nobly. Of course we are scattered over a large area, and it took us some little time to get organized; still, I don't believe we are too late in getting supplies to you, considering the long winter that is before the poor fire sufferers.

Dear Sir;—I have shipped to you to-day by the Dominion Express Co. a box of clothing for distribution among those who are destitute.

I do not know your manner of relieving the sufferers, whether as a general Society for all or whether the different churches look after their own. J. B. SCLATER, ESQ., SECRETARY RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir;—Absence from home prevented my acknowledging your courteous telegram of the 28th ult. I hope that the relief from all quarters will prove a substantial amelioration, especially to those overtaken by the calamity without any provision.

I was sorry to note that some of our newspapers criticized our Relief Committee adversely on account of the purchase by them of provisions, blankets, &c. I made some enquiry on my return to get the points of the case, and learned that the object in sending provisions was two-fold : first, to meet the pressing wants of the large number of the houseless indigent ; next, to take advantage of the free delivery of all contributions as well as the opportunity of purchasing supplies under current values, which would be an advantage to your Relief Committee, as in any case the provisions would represent more than cost.

I have taken the liberty of referring to this matter with my explanation in the hope of correcting any misconception should there be such. With kind regards;

Truly yours,

JAMES CORISTINE.

CITIZEN'S COMMITTEE,
Toronto, August 10, 1892. }

MR. PRESIDENT AND GENTLEMEN OF THE RELIEF COMMITTEE:

Gentlemen,—On behalf of the Executive of the Citizens' Newfoundland Relief Committee of Toronto, we are authorized to write your Committee for some explanations in regard to the sum of \$5,000 granted by our City Council for the relief of the fire sufferers of St. John's, N. F.

It appears this money was granted by this city, as the result of the efforts made by members of our Committee. The money has now been in the hands of the City Treasurer for some weeks and we understand that, although he has telegraphed your Committee to draw on him for that amount, you have not done so. Coupled with this fact there has appeared in the press here reports concerning some dissatisfaction amongst the members of your Committee. Our Secretary telegraphed the Hon. Mr. Little, the President of your Committee, asking for some explanation regarding the City's grant not being drawn upon, but has received no reply, consequently this morning our Committee telegraphed advising you to draw on the City at once for the amount. We trust you will follow instructions contained in our message, otherwise it is probable the money will be withheld. People here are under the impression that you have received actually more money than you require and there is a feeling that the grant should be rescinded, which could be easily done at the next meeting of the Council, as the grant was carried by a close majority.

Through representations and efforts made by our Committee, the Board of Trade of this city were induced to take up a subscription and send the handsome sum of \$10,000. A deputation from the Committee waited upon the City Council to urge the grant of \$5,000 and the Committee also called upon the Provincial Government, resulting in a further grant of \$10,000. Besides this several carloads of provisions and clothing were forwarded and the Committee has now in hand a further sum of nearly \$600.

The Committee feel, therefore, some considerable responsibility in this matter and trust that their advice will be adopted by your Committee and that they will receive some assurance and explanations on receipt of this letter either by telegraph or letter.

We remain, yours very truly,

J. M. EWING, *Treasurer.*

A. C. WINTON, *Secretary.*

P. S.—Since writing the above we have just received a telegram from you stating that the sum of \$5,000 had been drawn upon on the 19th July last, but on enquiry at the City Treasurer's office we learn that the money has not yet been drawn. There must be some mistake somewhere and already the press are making a note of it by stating that you have not drawn on the City's grant. Of course you understand the Committee have the interest of St. John's at heart and would not like to see this sum diverted from its original channel.

A. C. WINTON, *Secretary.*

ST. JOHN'S, N. F., August 20, 1892.

Dear Sir,—I have your favor of 10th inst. addressed to our President, and have advised you by telegram of our having drawn on Mr. Patterson for \$5,000 on the 10th. The Committee regret exceedingly that your Council, to whom we owe so great and lasting an obligation, should have been occasioned any anxiety on account of the draft for \$5,000. The delay occurred in this way: On receipt of telegram from your City Treasurer we drew for the \$5,000 on the 19th July, but on presenting the draft at the Union Bank here, we were informed that they (the Bank) had received a credit from Toronto for \$7,000, and they advised our holding over the \$5,000 draft for the present to await explanation as to whether the latter formed a portion of the former amount. When, however, we learned that it did not, and was so much additional, we at once drew, as I have said, for the \$5,000. It is very unfortunate that this matter should

have given rise to misapprehensions among the benevolent donors, whose generosity is so gratefully appreciated here, and we sincerely hope the explanation now given may reassure their minds and set at rest any doubts that may have been suggested by the delay to which I have referred.

The reports in the press, to which you allude, referring to the dissatisfaction amongst our Committee, are, you may be assured, without any foundation whatever.

I remain, yours truly,

J. B. SCLATER, *Secretary R. C.*

THE MANSION HOUSE }
Loudon E.C., August 16, 1892. }

J. OUTERBRIDGE, Esq.:

Dear Sir,—The Lord Mayor's Committee, at their meeting to-day, requested me to write to you to say that, with a view to enlisting increased interest in the Fund, which, owing to the excitement consequent upon the govermental changes and to the holidays, is somewhat flagging, they would much like to hear from your Committee such details of the needs of the sufferers and the method of distributing relief as would interest them and the public here. They would also desire to learn, if possible, the amount of the remittances from all sources up to date, and whether any calculation has been made as to the aggregate sum likely to be wanted for relief purposes either now or during the coming winter.

To this day £27,750 has been received here for the Fund, of which £17,000 has already been remitted. The balance is being retained in hand at present, the view of the Committee being that the distress in the winter is likely to be infinitely keener than at present, and that it is desirable to keep something back with the object of meeting that distress.

Every communication up to now pointed to the likelihood and indeed the certainty, that those most in distress are the class immediately above the working population, such as clerks, shopmen, assistants, single ladies, and widows, who have been burned out of house and home and are left without income or lodging, or furniture, and who, of course, are not acquainted with the manual toil which will be so much in demand in the reconstruction of your city. For this class the Committee feel deeply and they will be much pleased to hear what arrangements are being made for these especially unfortunate sufferers.

You may be interested in reading the enclosed appeals.

Yours very truly,

W. J. SOULSBY, *Secretary.*

ST. JOHN'S, N. F., September 12, 1892.

W. J. SOULSBY, SECRETARY MANSION HOUSE COMMITTEE:

Dear Sir,—I have the honor on the part of the Fire Relief Committee to acknowledge your letter of the 16th ult. to our Treasurer, Mr. Outerbridge, with copies of Appeals by the Lord Mayor and Mansion House Committee on behalf of our Fire sufferers.

You are good enough to intimate a desire for information as to the aggregate contributions received here; the methods of distributing relief, and other matters in relation to the present and prospective condition of those who have been stricken down by the recent disaster. The Lord Mayor's Committee has already laid us under deepest obligation by their spontaneous and munificent assistance, and we are further grateful for the sympathetic and continued interest evidenced by your letter and enclosures.

The accompanying statement places before you the total amount of contributions in money and money's worth which have been forwarded to us up to the 1st inst., the amount of cash remaining at that date, and an inventory with estimated value of articles on hand awaiting distribution during the autumn and coming winter.

The account stands thus:—

Total cash received.....	\$177,320.12	or £36,941 13 10 stg.
Total cash now on hand....	85,060.69	or 17,720 19 7
Total cash expended.....	92,259.43	or 19,220 14 3
Total goods received.....	70,955.50	or 14,782 7 11
Total goods now on hand..	35,756.60	or 7,449 5 10
Total goods distributed ...	35,198.90	or 7,333 2 1

Immediately upon the formation of our Committee several sub-committees were chosen from its members, to each of which was assigned a special department of work—receiving, distributing, purchasing, building, &c. Under their management in connexion with the General Committee, all deserving applicants have been relieved as far as practicable and in the ways most suited to their wants. For a short time after the Fire the issue of gratuitous relief on a rather large scale was found to be unavoidable, as the means of employment were then very limited. But during the last four or five weeks all persons fit for work have been able to find it, and our expenditure has accordingly been restricted to aiding those who from various causes are wholly unable to labour, and those who can but inadequately help themselves. This class comprising the aged, the infirm, and those who have never known manual toil is unfortunately a large one; and for

a considerable time to come we shall have to provide for them, although we hope to a gradually diminishing extent.

A large sum has been expended in the erection of temporary dwellings for the most necessitous, and in assisting those less needy by distribution of building materials to provide permanent houses for themselves. Several of the latter are already occupied and the remainder will be completed within a few weeks.

Our Committee have been mindful of the class of sufferers specially referred to by you, clerks, single ladies, and others suddenly reduced to indigence from positions of comfort and independence. In all these cases that have been brought to our knowledge temporary assistance has been given, and a particular enquiry is now proceeding with a view to discover if there are others in like condition; then to classify the losses and to ascertain what further aid may be needful and how far it can be provided within the means at our disposal. For this object we have reserved and placed in Bank a sum of Fifty thousand dollars to be divided amongst these sufferers in amounts proportioned as fairly as may be to their merits and necessities.

A further sum of Twenty thousand dollars has been deposited in Bank for the erection of houses as suitable as our resources may allow for such persons as those last mentioned, and which will be let to them at low rents to form a trust fund for their future benefit.

There is much reason to apprehend that when the full number of cases now under examination are reported and we have a somewhat distinct view of all the others seeking help from the Committee, our available funds will be found very insufficient to meet the requirements. The winter is not far off, and with it will come extra demands for the improvement of the temporary houses and for other purposes not less essential to the health and sustenance of the applicants. It is impossible at present to estimate approximately the extent of these demands, but the Committee will be enabled at a later date to communicate with you on this point in sufficiently definite terms.

With renewed expression of thanks for the large-hearted generosity we have received from the Lord Mayor's Committee, and recognizing the wisdom and thoughtfulness that have induced them withhold for the present the balance of contributions now in their ha

J. B. SCLATER, SECRETARY ST. JOHN'S, RELIEF COMMITTEE:

Sir,—I have the honor to inform you that a fund has been started in this Colony for the relief of the sufferers by the fire which happened at St. John's in July last, and I beg to enclose, to be applied towards such relief, a bill of exchange for £50 on Messrs. P. Leckie & Co., 23 Lime Street, London, at three days sight, and hope soon to be in a position to make further remittances.

I also enclose some copies of a notice which has been issued to the public invoking the help of the charitable towards the Fund.

J. B. SCLATER, Esq., SECRETARY RELIEF COMMITTEE:

Dear Sir,—I herewith enclose you a cheque for \$600, being the amount voted me by the Legislature as Speaker's and Member's pay for the special session of the House of Assembly just closed, and respectfully request that you will hand the same to the Relief Committee for the sufferers by the fire of eighth of July last.

If I may be allowed to suggest any special object, I would recom-

mend the money to be devoted to the fund for the construction of dwellings for the poorer sufferers. I would not, however, by this suggestion, be understood as in any way interfering with the discretion of the Committee if they think otherwise.

Yours truly,

GEORGE H. EMERSON.

C.) As we have not examined this case of dry goods, I am not aware of its contents; you will probably find some good blankets in it among other things.

In closing our accounts is it better that you should draw on me for any balance or that I should remit you a draft.—I mean with regard to banks. I thought perhaps that your banks might do this business free of commission; ours will charge their usual rates. You might wire me in reply. I would also suggest that you write Hon. L. H. I also enclose you a copy of our final Report in which we wind up our transactions. This Report, which covers goods, &c., to the value of over \$7,000 (which I know to be a moderate estimate), does not include goods, &c., shipped you from Summerside and Alberton. I do not know the value of these, but presume that the whole Island must have raised about \$11,000. This, considering the depressed state of business here, is fairly creditable. As suggested in my note, per *Bonavista*, would your Committee write a formal letter of acknowledgement covering this Committee's shipments and donations to you for publication in our papers.

THE SECRETARY RELIEF COMMITTEE, ST. JOHN'S, N. F.:

Dear Sir,--The Windsor Committee of Newfoundland Relief fund cannot but express surprise at the last telegram received from you.

The Committee were given the discretionary power as to the disposal of the money collected in Windsor and decided to send to Newfoundland goods instead of cash.

In acting thus they are sorry that they have incurred the displeasure of the Committee in St. John's, but at the same time are still of the opinion that they acted so as to secure the approbation of the subscribers to the Windsor fund.

The Windsor Committee have still a balance of about one hundred dollars in their hands and as soon as they receive from you an acknowledgement of the receipt of the goods per *Ulunda* as per invoices already sent, they will be prepared to transmit in cash the balance in their hands. I may say that the Committee are only acting for the subscribers in Windsor to whom they have to report. Such report can only be made up after receiving from you acknowledgment of receipt of goods.

THOMAS MITCHELL, Esq., CHAIRMAN MUNICIPAL COUNCIL, ST. JOHN'S, N. F.:

My Dear Sir;—I am in receipt of your esteemed favor of September, 24th, and would say that although it has been long looked for the kindly expressions therein contained, and the graphic idea that you have given of the amount of good done by the contributions from this city have more than repaid us for anything that we have done to assist you in the relief of the sufferers of the fire, only regretting that our offerings were not considerably larger. During the progress of our work we met some of the most influential and prominent society men in Hamilton. Our associations were of the most pleasant, and the business done on business principles. On the afternoon of the Demonstration the weather was delightful, the Mayor and Corporation granting a half holiday. The procession was a grand one and our entertainment was first class, and our net surplus for the relief of your citizens was one thousand three hundred and twenty-one dollars; one thousand dollars of which you have already received and I would thank you to draw on us at once for the balance \$321.50, as we desire to close up the account.

Hoping your efforts will be thoroughly appreciated by your citizens, and that "He who tempers the winds to the shorn lamb" will be merciful to the poor during the coming winter.

I have the honor, dear sir, to remain,

Yours faithfully,
JOHN B. BUCKINGHAM, *Secretary.*

TO HIS HONOR THE MAYOR OF ST. JOHN'S N. F.:

Mr. Mayor—On hearing of the terrible calamity which has destroyed such a large portion of your city I called on our citizens to contribute their mite for the relief of your unfortunate sufferers. Goods to the amount of one hundred dollars were sent by the *Granite Mills* of this city through the Montreal Committee to take advantage of the steamer sent from Montreal with supplies.

I herewith send you a draft, No. 3914, from ‘La Banque de St. Hyacinthe’ on the Merchants’ Bank of Canada, Montreal, for one hundred dollars. The amount is not large, but we had in two parishes of our

county, a few days before your calamity, a terrible cyclone, which completely destroyed the houses, barns, out-buildings and fences, in the space of a few minutes, on a large number of farms, leaving their proprietors with nothing almost but the clothing they wore at the time. If we had not to subscribe for our own people the amount raised would have been larger. I trust, however, that this small amount will be acceptable under the circumstances.

Unavoidable delays prevented me from sending you this amount sooner; the collectors having just handed me the amount this very day.

Believe me, sir, with the highest consideration,

Yours truly,

HON. E. D. SHEA:

Dear Mr. Shea,—As to a considerable extent I believe I was the instrument of obtaining for the Colony the assistance it has just received, I trust you will allow me to make a few suggestions as to

its expenditure, as I feel the question may naturally be put to me as to what the purpose was to which these funds have been applied.

I am the first to recognize the good work done by the Committee, the necessity in the first instance for the aid afforded, and the unrepresentative nature of such aid, and hence the little there is substantially to show for the large sum that has been expended. The time of the greatest pressure being now over, however, it would seem to be opportune to consider whether more permanent relief works might not be undertaken in the shape of—as in the case of Mauritius—advances on mortgages and on guarantees of repayment of principal and interest, for it must be borne in mind that the working classes have been fed, temporarily housed, and partially clothed. It, therefore, does not seem unreasonable, now that they are in full work, that as they paid rent before, they should now gradually refund what enables them to become again permanently housed in dwellings built in regard to a better plan, more suitable to the requirements of the day, a point that should be insisted on as a *sine qua non* of the loan.

Again the opportunity seems to me one that should not be lost for erecting for the accommodation of the working classes, buildings corresponding to the Artizans, or as they are sometimes called Peabody dwellings, now seen in other large cities, which when constructed by a Company or charitable guild, with a limited, though good and fair amount of interest, have proved to be most profitable investments leaving large balances for the benefit of those institutions. Advances made to such a Company which, in my opinion, should consist of managers quite apart from local political or other influences, and who would in their own interest insist on order, cleanliness and payment of rents, would appear to be a very legitimate means of employing this money, which then would remain a lasting memorial of the generosity of the donors and of the exertions of the Committee on behalf of their suffering fellow citizens.

Yours sincerely,

T. O'BRIEN, Governor.

ST. JOHN'S, November 3, 1892.

TO HIS EXCELLENCY SIR TERENCE O'BRIEN :

Dear Sir Terence,—I have the honor to acknowledge and have laid before the Relief Committee your Excellency's letter of the 29th ult. on

the mode of expending the munificent contribution which Her Majesty's Government have been pleased to grant in aid of our Fire sufferers.

The Committee desire to offer to Your Excellency their best thanks for your good offices in recommending their appeal for assistance to the favor of Her Majesty's Government.

They would also gratefully acknowledge your suggestions regarding the application of the funds in question; and while fully recognizing with Your Excellency the good results that have flown in other countries from the plan of artizan dwellings based on mortgages and guarantees, the Committee are of opinion that the general condition of our community does not encourage the hope that a scheme of this nature could be successfully worked, and that present circumstances are peculiarly unfavorable to its initiation.

The formation of a Company or the creation of a Trust must be a preliminary step if such a plan were to be adopted; and the Committee believe that persons possessing the qualities requisite for the undertaking, and free from local, political or other influences, as Your Excellency suggests, are now all so engrossed with their private affairs that they would be unable to assume the management with its attendant responsibilities.

It moreover appears to the Committee that there will now be hardly any need for additional houses. They have erected on the Park and at the Railway Depot 230 temporary dwellings, and on the New Era Grounds 98 others of a better class, which latter are let at moderate rents. They have also partially supplied deserving applicants with building materials to erect 225 tenements in several parts of the town; and have in like manner assisted the class of sufferers possessing some little means, thus enabling them to build for themselves in town and in localities convenient for their business or employment 710 houses of a permanent character, some of which are already finished, while others yet require a helping hand.

When the requisite aid has been given in these cases, and possibly in a few others yet to be heard of, the Committee feel that the work of housing our fire sufferers will have been completed with a fair degree of success.

I have the honor to be,

Your Excellency's obedient servant,
E. D. SHEA, Vice-President Relief Committee.

W. S. MELVILLE, Esq., A. D. C.:

Sir,—I have the honor to acknowledge receipt of your letter of 1st inst. with enclosure from Mr. Soulsby, Secretary to the Mayor of London, remarking it as rather strange that considerable gifts of clothing forwarded here from England have remained unacknowledged by our Relief Committee.

A very large number of packages containing articles of clothing and other very acceptable donations have been received here throughout the season, without any accompanying letters, addressed only "Relief Committee, St. John's, Newfoundland," and bearing no word or mark to show whence they came or by whom they were sent. The Committee have felt the awkwardness of the position in which they have been thus placed, as while anticipating that disappointment would be caused to generous donors, they have been wholly without the means of preventing it.

The Committee have no doubt whatever that the bales of goods referred to by Mr. Soulsby have been received amongst those addressed as above mentioned, and I am to express their most thankful acknowledgement for these testimonies of sympathy and care for the fire sufferers of St. John's.

I have the honor to be, sir,

Your obedient servant,

E. D. SHEA.

HON. JUDGE LITTLE:

Dear Sir,—Will you kindly pass enclosed bank draft to the Chairman of your Fire Relief Committee. Some of our citizens, appreciating the effect of a disastrous fire in our own town some years since, have made this contribution, believing at this season it may be fully as desirable for the relief of some of your citizens as at an earlier date. Trusting that your city may speedily recover from the effects of this great disaster,

I am, yours truly,

J. B. SCLATER, SECRETARY RELIEF COMMITTEE :

Dear Sir,—Your kind letter announcing the arrival of the case we addressed to you for the St. John's Relief fund is duly to hand.

By an oversight we omitted to advise you of the despatch of the case, the contents of which were five pairs boots, five macintoshes : the two bales you mention in your letter must have been sent by another kind friend.

We remain, yours sincerely,

HON. JUSTICE LITTLE, CHAIRMAN RELIEF COMMITTEE, ST. JOHN'S, N. E.:

Dear Sir,—I enclose you a note which I wrote to-day to the Manager of the Bank of Nova Scotia here with his reply thereto. I made two shipments of provisions and clothing from here to St. John's, Newfoundland, via Halifax, both of which were duly advised and bill of lading forwarded. The nominal value was, with the cash in the Bank, \$2,293. The money still remains in the bank here to your credit. I don't think that I have received any formal acknowledgement of the receipt of the clothing and provisions, and as the money has not been utilized I thought it advisable to give you this reminder that the \$228.06 is in the bank subject to your order for the relief of the sufferers by the late fire.

Wishing you the compliments of the season, I am, dear sir,

TORONTO, December 27, 1892.

HON. JUSTICE LITTLE, CHAIRMAN RELIEF COMMITTEE:

Dear Judge— In the beginning of July upon hearing of the disastrous fire in St. John's, I telegraphed to the Hon. A. Harvey from a little American place where I was at that time, asking him to draw on me in Toronto for the sum of \$100, which I desired to contribute to the Relief Fund. He acknowledged the receipt of my telegram and said that he handed it to you and that you would draw in the course of time. I have heard nothing more of the matter and do not understand why I have not been called upon. I have received a letter within the last two or three weeks from my brother, Hugh V. Hoyles of Queensland, Australia, expressing his regret at fire and asking me to send \$100 for him.

Possibly you are not in need of these sums, which is the only reason I can assign for your not having drawn upon me, but if you want the money for the Relief work, kindly draw upon me for \$200 at your early convenience.

Wishing you all the compliments of the season,

Believe me, yours sincerely,

N. W. HOYLES.

TURK'S AND CAICOS ISLANDS,

GRAND TURK, TURK'S ISLANDS, December 31, 1892.

J. B. SCLATER, ESQ., SECRETARY RELIEF COMMITTEE:

Sir—I have the honor to enclose to you herewith the first of a bill of exchange drawn on Messrs. Dunsecomb & Firth, 40 Exchange Place, N.Y., agents in New York for the Turk's Islands Government, at three days sight, for four hundred and ninety-four dollars and eighty-five cents in your favor as Secretary to the St. John's Fire Relief Committee, which you will please have collected and the proceeds handed over to the Treasurer of the said Committee to be dealt with for the benefit of the people who are suffering from the effects of the late fire at your city. Enclosed, also, you will find a memorandum of the sums from which monies have been derived and the names of subscribers, and a copy of the local paper which will show how the fund was started and the measures initiated for the collection of the same.

You will find that the bill of exchange only calls for \$494.85, the sum of \$4.99 being excluded as the usual commission charged by agents in New York.

Please acknowledge the receipt of this letter at your earliest convenience.

Dear Sir,—By the *Portia*, which arrived here on the 28th October last from New York, a piano came to our care, but we were not aware who the shipper was or its intended destination till January when we are advised by Mr. Henry P. Winter, of New York, that he had shipped it just before leaving for England as a donation toward the Relief fund but forgot to advise us of it. After waiting for a considerable time expecting advice and supposing it to be for trade purposes, we paid freight and also approx. duty. The freight Messrs. Bowring & Archibald, New York, agree to refund through Messrs. Harvey & Co., and we have no doubt the Customs will also refund the duty paid by us.

The Piano is at our new store and you may take possession when it suits you.

To J. B. SULATER, SECRETARY RELIEF COMMITTEE :

Dear Sir,—Your letter, and also one from Hon. Joseph J. Little, duly received. In behalf of the friends of Newfoundland and of the Relief Committee of Boston, I now enclose a cheque for three hundred and fifty-three dollars and ninety cents (\$353.90) for the relief of the fire sufferers, this being the last instalment from Boston. We wish it were more, knowing that the loss sustained by your people must be a serious impediment to the industrial growth of your city and to Newfoundland. But it is to be hoped that St. John's will rise from its ashes only to be more beautiful than before.

We have carefully looked over the news from your city expecting to learn what is going on in the way of rebuilding and improvements, but failed to get the desired information. We should be much pleased if you would write us in regard to this matter, for which news we should be extremely grateful.

HON. A. W. HARVEY :

My Dear Harvey,—A direct opportunity for St. John's having offered from London, by the S.S. *Ulunda*, I have, through the kindness of Mr. Thomas Ronaldson, forwarded 6 packages of clothing for the sufferers by the fire, and though this bill of lading is made out to the Chairman of the Relief Committee, I send it to you, as that gentleman has never replied to one of my letters hitherto, and though this shipment will make eighteen large bales and cases that I have sent at my own cost and charges, I don't even know that one has reached its destination, though I must presume, as

the Committee held the bills of lading, that some one would see that they were satisfied; and although the Mansion House Committee fathered the sending of the clothing, they never had anything to do with it beyond asking people to send in. I do hope the bales were received and that the clothing was and is a comfort to many a poor creature during the cold weather.

I was very sorry to see that you had had another fire on your premises. This must have been a fearful hindrance to business, to say nothing of a money loss, though I hope you were well insured. With kind regards to all you circle, and wishing you a Happy New Year,

I remain, yours sincerely,

GOVERNMENT HOUSE,

St. John's, N. F., March 9, 1893.

PRESIDENT RELIEF COMMITTEE:

Sir,—His Excellency the Governor having received a request from the House of Assembly that it should be furnished with a report of the proceedings of "The Relief Committee appointed to take charge of and distribute the funds contributed for the sufferers by the fire of 8th July last, " accompanied by a statement of the receipts and expenditure of the said "Committee," I am directed by His Excellency to beg he may be supplied with the statement called for.

I am, however, to point out that in so doing the names of the recipients be not given, for it was the express desire of the principal contri-

butors, viz.:—The Mansion House Committee—that no such publicity should be given, as it was felt that there must be many who though losing their all, would still feel humiliated by being considered the recipients of public charity. At the same time he thinks that it might be intimated by you that there would be no objection to allow reference to be made to your books in case it should be desired to test misrepresentation or other such pleas.

I have the honour to be, sir,

Your obedient servant,

W. S. MELVILL, Lt., A. D. C.

To W. S. MELVILL, Lt., A. D. C.:

ST. JOHN'S, April 8, 1893.

Sir,—I have the honour to acknowledge receipt of your letter of the 9th ult., requesting that His Excellency the Governor may be furnished with a report of the proceedings of the Fire Relief Committee, with a statement of their receipts and expenditure, for which the House of Assembly had applied to His Excellency.

On receipt of your letter I informed His Excellency personally that the statements he desired would be prepared as soon as possible, but that as they would require extensive references and calculations, and the private engagements of the members of the Committee having these matters in hand would render them unable except at intervals to devote to them the necessary attention, some time must elapse before they could be forwarded to him.

The Committee would observe to His Excellency that their work is not yet nearly complete, and it would be impossible at its present stage to give a full report of their proceedings. Such a report will of course be presented on the termination of the duties of the Committee, and they trust that His Excellency will meanwhile consider sufficient for his purpose the accompanying abstract statement of their receipts and expenditure of money with distribution of provisions, clothing, and other necessaries to the 15th last March.

I have the honor to be, sir,

Your obedient servant,

E. D. SHEA, *Chairman Relief Committee.*

REPORT OF ST. JOHN'S RELIEF COMMITTEE.

157

ST. THOMAS'S RECTORY,
St. John's, October 27, 1892.]

J. R. McCOWAN, Esq., SECRETARY OF DISTRIBUTING RELIEF COMMITTEE:

Dear Mr. McCowan,—I beg to thank you for letting me see the returns of clothing, provisions, &c., given out in the Park, and which I now send back to you. It is very satisfactory to know that these reliefs have been given upon a definite scale, and that the rule is to make a record of everything.

Whilst writing to you as Secretary of the Relief Committee now when the more onerous part of the work is (I suppose) past, I think it only my duty to repeat what I have frequently said that I consider the Relief Committee has discharged its work and duty with very great success. It is inevitable that some abuse will occur even with the greatest vigilance, but knowing as I do something of the work done by the Committee, I feel that in looking back upon their work they will have exceeding little cause for regret.

Revising my list the other day, I find I had in my Parish 953 persons burnt out—not far from one-tenth of the whole number, and, as far as I am aware, they have good reason to be thankful. While some outsiders seem inclined to find fault, it is but fair that I should say this much. Every member of the Committee I have had occasion to consult, or ask a favor of, has been most kind. If I were to single out one in particular it must be the painstaking and indefatigable Distributing Secretary.

Dear Mr. McCowan, very sincerely yours,

ARTHUR C. F. WOOD.

My Dear Mr. Shea,—Much obliged for your kind note. I gladly avail of the present to express my thanks to the Committee for the kindness and consideration they have invariably shown in promptly attending to the many applications I have been from day to day obliged to make.

Very truly yours,

J. SCOTT.

SUB-COMMITTEES' REPORTS.

The Receiving Committee, in submitting a report of supplies consigned to the General Relief Committee, state that owing to so many steamers having to discharge cargo at Dry Dock in consequence of scarcity of wharfage accommodation, they experienced great difficulty in keeping a perfectly accurate account of goods received by each vessel, and some few of the shipments may be a little mixed, but the total receipts are correct. Had shippers in all cases sent on a bill of lading with their donations, and had the goods been marked, no trouble whatever could have occurred. The kind donors will please observe that the total value embraces only goods deposited or stored for distribution by Relief Committee, and does not include goods addressed to private individuals and delivered to them for distribution.

REPORT OF THE SHELTER COMMITTEE.

After the terrible conflagration of the 8th July a large crowd of sufferers removed their small savings of furniture and other household goods to Bannerman Park where they rested until next day, the Government and citizens sending food to supply their immediate wants. Without loss of time His Excellency Sir F. B. T. Carter, K. C. M. G., appointed a Commission to assume and manage the distribution of food, clothing, money, &c., &c. at their disposal. By their directions we immediately commenced the erection of temporary houses to shelter the poor, and in a very short time we had fifteen hundred and forty persons occupants of said houses. The timely arrival of H. M. ship Blake, Captain Hamilton, from Halifax, with tents, canvas and food, was quickly and duly appreciated. We also had erected an hospital for the use of the sick, and cooking rooms to cook food for the people; sanitary arrangements were adopted and enforced, with an abundant supply of good water to preserve the health and cleanliness of the inhabitants. All this necessary work was urged on by your Committee who were ably assisted day and night by Sub-Inspector Sullivan of the Police Force.

In addition to the foregoing accommodation, prepared and occupied by the fire sufferers we had forty temporary dwellings erected on the Railway Meadow and there were 87 tents pitched on a meadow by Quidi Vidi Lake and twenty families had the use of a store at Riverhead, loaned us by John Browning, Esq. (and for which service on the part of this gentleman, the Committee cannot too strongly express their obligation), in all there were nineteen hundred persons under our care and supervision. Food was cooked and served daily at the several places, and all was of good quality—Tea, Biscuit, Bread, Butter, Pork, Beef, Rice, Vegetables, Soup, Fish, &c., &c. From the 11th July to 8th October, 1892, 79,533 rations were issued from the Cook Rooms in Bannerman Park to the occupants of the temporary dwellings. After that date all the houses were furnished with stoves and the cook houses were closed. The needy were still helped with food until they left the Park about December last. The estimated cost of the rations daily issued was twelve cents per head.

We gave notes to the Parade Rink Committee to supply the various families with clothing, from ten to fifteen dollars cash. A second supply had to be given as the season advanced and we had a quantity of blankets

and clothing brought to a store in the Park and placed under the care of Sub-Inspector Sullivan to be given to the most needy.

In consequence of the fire, quite a number of girls and women were thrown out of employment. We opened a school of industry for some of the unemployed. We taught them spinning and knitting which gave them much needed help to tide over the fall and winter and was an educator to many for their future good. We also opened a school for little children found in the poorest homes and this was much appreciated as the attendance of 100 to 120 daily gave evidence that it was a necessity. We enforced cleanliness and good behavior everywhere, and it is due to Head Constable Winslow to say that he was most diligent and pains-taking to keep every part of the work entrusted to him in perfect order. The general behavior of the people was excellent; and considering the changes that many of them were called to pass through, it is surprising how everything worked out so satisfactorily. To supply shelter for many families we had to erect ninety-eight temporary houses on the Parade. The necessity for so doing was that there were no tenement houses to be rented in the city, where two to four families had been living during the summer, in one house. For health and morality this outlay could not be avoided.

The foregoing is respectfully submitted,
